HISTORY OF SHERLOCK HOLMES

Sherlock Holmes is a fictional detective created by Scottish author and physician Sir Arthur Conan Doyle. A Brilliant London-based "consulting" detective, Holmes is famous for his astute logical reasoning, his ability to take almost any disguise, and his use of forensic science skills to solve difficult cases.

Holmes, who first appeared in publication in 1887, was featured in four novels and 56 short stories. The first story, *A Study In Scarlet*, appeared in Beeton's Christmas Annual in 1887 and the second, *The Sign Of The Four*, in Lippincott's Monthly Magazine in 1890. The character grew tremendously in popularity with the beginning of the first series of short stories in Standard Magazine in 1891; further series of short stories and two novels published in serial form appeared between then and 1927. The stories cover a period from around 1880 up to 1914.

INSPIRATION FOR THE CHARACTER

Doyle said that the character of Holmes was inspired by Dr. Joseph Bell, for whom Doyle had worked as a clerk at the Edinburgh Royal Infirmary.

Like Holmes, Bell was noted for drawing large conclusions from the smallest observations. Sir Henry Littlejohn, lecturer on forensic medicine and public health at the Royal College of Surgeons of Edinburgh, is also cited as a source for Holmes. Littlejohn served as police surgeon and medical officer of health of Edinburgh, providing for Doyle a link between medical investigation and the detection of crime.

EARLY LIFE

An estimate of Holmes' age in the story "His Last Bow" places his birth in 1854; the story is set in August 1914 and he is described as being 60 years of age. Commonly, the date is cited as January 6. However, an argument for the later birthdate is posited by author Laurie R. King, based on two of Conan Doyle's stories: *A Study in Scarlet* and *The Gloria Scott Adventure* indicate Holmes finished his second and final year at university in either 1880 or 1885. Watson's own account of his wounding in the second Afghan war and subsequent return to England in *A Study in Scarlet* place his moving in with Holmes in either early 1881 or 1882. Together, these suggest Holmes left university in 1880; ifhe began university at the age of 17, his birth year would likely be 1861.

HABITS AND PERSONALITY

Watson described Holmes as "bohemian" in habits and lifestyle. According to Watson, Holmes is an electric, with no regard for contemporary standards of tidiness or good order.

Holmes has an ego that at times borders on arrogant, albeit with justification; he draws pleasure from baffling police inspectors with his superior deductions. He does not seek fame, however, and is usually content to allow the police to take public credit for his work. It's often only when Watson publishes his stories that Holmes 's role in the case becomes apparent.

LIFE WITH DR. WATSON

Holmes shares the majority of his professional years with his good friend and chronicler Dr. John H. Watson, who lives with Holmes for some time before his marriage in 1887, and again after his wife's death; his residence is maintained by his landlady, Mrs. Hudson.

Sherlock Holmes on John Watson's "pamphlet", *A Study In Scarlet*.

Nevertheless, Holmes 'friendship with Watson is his most significant relationship. In several stories, Holmes' fondness for Watson - often hidden beneath his cold, intellectual exterior - is revealed.

It was worth a wound; it was worth many wounds; to know the depth of loyalty and love which lay behind that cold mask. The clear, hard eyes were dimmed for a moment, and the.firm lips were shaking. For the one and only time I caught a glimpse of a great heart as well as of a great brain. All my years of humble but single-minded service culminated in that moment of revelation.

ROLE IN THE HISTORYOF THE DETECTIVE STORY

Although Sherlock Holmes is not the original fictional detecitive (he was influenced by Edgar Allan Poe's C. *Augyste Dupin* and Emile Gaboriau's *Monsieur Lecoq*, for both of whom the character openly expressed disdain or contempt), his name has become a byword for the part. His stories also include several detective story characters, such as the loyal but less intelligent assistant, a role for which Dr. Watson has become the archetype. The investigating detective became a popular genre with many authors such as Agatha Christie and Dorothy Sayers after the demise of Holmes, with characters such as Hercule Poirot and Lord Peter Wimsey. Forensic methods became less important than the psychology of the criminal, despite the strong growth in forensics in use by the police in the early 20th century.

In *'His Last Bow'*, Holmes has retired to a bee farm on the Sussex Downs in 1904-1903, where he takes up the hobby of beekeeping as his primary occupation, eventually producing a *"Practical Handbook Of Bee Culture, With Some Obsavetions Upon The Segregation Of The Queen"*.
